

Institutional Distinctiveness

The Department of Urdu has been recognized as 'Distinctiveness of the Institution' for promoting Urdu language and literature since 1958 among the Muslim population of Kurnool.

The Dept. of Urdu has been conducting the Literacy Awareness Campaign since 2017 where the students of HPU have taken the responsibility to provide minimum literacy to the neighboring illiterate people. For this purpose, the students have conducted the survey in their surrounding areas in which they visit at least 10 houses and find out the list of illiterate people. Each student cum teacher take classes for 5 to 10 illiterate students in their respective houses. This activity is very much beneficial to improve the literacy rate among the minority community. This is learner-centric and community service activity under Best Practices. In this initiative, the dedication and performance of the students as teachers is highly appreciated.

The NAAC Peer Team had all praise for Urdu Language and Literature being the distinctiveness of the institution.
