Percentage of power requirement of the University met by the renewable energy sources

A substance that is the byproduct of human and animal activity and which cannot be further either reused or recycled as such is termed as a "Solid waste". The menace of 'Solid waste' if not properly managed will lead to water, soil, air pollution. Also, it has its impact over flora of the campus and will effect the general health of staff and students. The sources of solid wastes in the college campus are plant wastes, chemical wastes from science laboratories and wastes from the kitchen of the college hostels. The solid wastes which get accumulated from vegetation in the college campus and kitchen wastes from the hostels are being used as a raw material in "vermin composting" unit maintained by the department of Botany. The compost manure thus produced is being used for the crop cultivated in "Organic Farm" located in the college campus which is

also being maintained by the Department of Botany. The solid chemical wastes such as residual chemicals, used filter papers from Chemistry labs are being dumped in a pit dug on the ground and thereby facilitate its biodegradation.

The solid wastes such as empty glass/plastic bottles are being sent for recycling to local units. The chief sources of Liquid wastes are the laboratories and waste water accumulated due to domestic activities in the college hostel. This water is partially used. The Liquid waste thus produced is let into the K.C. A cana which is located beside the college. The leftover acidic or basic solutions in Chemistry laboratory are put to use by giving the same solutions for volumetric estimations. The acidic and basic liquid wastes are completely neutralized before draining them out through sinks. In recent years the general usage of Computers, Computer accessories, CDs, DVDs, speakers, mouse, key boards, spikes, Air conditioners, spectrophotometers, digital appliances and other electronic devices and so on has enormously increased. It is quite natural that any electronic device works only for a stipulated period and after that, it becomes unusable and irreparable. All such unusable electronic devices and their accessories are categorized as "Ewaste".

The main problem with E - waste is the problem of space. Storing becomes impossible when their quantity increases to a unmanageable level. Hence their disposal becomes mandatory. But the aspect of boon is being that E - wastes could be put to recycling. The college whenever experiences the acuteness of the menace of E - waste accumulation leading to space and storage problems disposes off the E - waste for recycling and the amount received is spent for purchasing new version computers and accessories. The college so as to dispose of E - waste accumulated in the department of Computer Science, Commerce lab, English Language Lab, office, various departments and JKC, constituted a committee for the disposal of E - waste on 06 - 02 - 2018 and sold E - waste for Rs. 1,03,490 to "Kingdom Digital Marketing, Anantapuram and in exc

2. ORGANIC FARMING AS A START - UP: The inspiration derived from the recent flagship initiative of the Government of India i.e. Startup India has motivated the College to build a friendly ecosystem that is conducive for the growth of startup agrobased business utilizing the land within the campus. The medium to high available nitrogen status in the soil samples might be due to continuous application of higher doses of organic manures and inorganic fertilizers. The high availability of phosphorus may be due to presence of high organic matter which favors the solubility of fixed phosphorus. The higher values of potassium could be attributed to more intense weathering and upward translocation of potassium from lower depth along with the capillary rise of groundwater.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The prime objective in establishing the K.V.R. Government College for Women in the town of Kurnool in the year 1958 was to provide quality education to rural and socially, financially backward women students. It was a memorable day, on 27 - 07 - 1958 the long cherished dream of the public of Rayalaseema, Andhra Pradesh, got manifested into reality because of the noblest donation of Rs. 1,00,000 by Sri Kasireddy Venkata Reddy. The total number of students enrolled this year in both UG and PG programs are about 2200. The college has a systematically maintained 'Students Managed Hostel that accommodates nearly 1100 students. The prime Vision of the college is to cater to the educational needs of poor and rural women students so as to transform them into confident, skilled and holistically empowered women. The college also bears the responsibility of imparting quality education to minority women students. The Mission of the college is to impart quality education to women students, equip them with soft and employability skills, enrich their minds with self confidence, courage them to face life challenges, train them in self defense and bring an awareness on social issues. In tune with vision and mission of the college, various unique and innovative activities are being regularly conducted with an aim to achieve holistic development of our students. The Women Empowerment Cell, the Department of Physical Education, NSS, NCC Coordinators and some of the departments are regularly organizing 'Gender Equity Promotion Programs'. WEC has organized awareness programs on woman rights, women education, human trafficking, child marriages, legal rights, issues of harassment. WEC is functioning hand in hand with 'SHE' team and other Non Governmental Organizations. The department of Physical Education is every year conducting 'Wushu" and 'Karate' self defense martial arts as a Certificate course. The College is endowed with highly efficient 'Safety Security' mechanism. The college campus is encompassed with a high wall with a single main gate. The entire college campus is under the surveillance of CC cameras. The students have easy access for 'Personal, academic and career Counseling' in the form of their Class attendance incharge. The effectiveness of 'Counseling' is reflecting in the aspects such as enhanced level of self confidence, courage to face challenges of life. The 'Counseling' also is strengthening the teacher - taught relationship. The department of Psychology organizes several awareness activities related to the subject of Psychology in collaboration with "Vidya Mind Center, Kurnool" and "Psychiatrists Association, Kurnool". The main focus of Department of Home Science is on empowering students in multidisciplinary fields with equal emphasis on Food Science and Nutrition, Human Development and Family studies, Textile and fashion designing, Resource management and Consumer Science, Extension Education etc. The Department of Urdu which caters to the educational needs of minority women students provides conceptual clarity, practical approach for learning Urdu literature.
